

**PERMIT TO ALLOW MINOR USE OF AN AGVET CHEMICAL PRODUCT  
FOR CONTROL OF VARIOUS DISEASES IN CULTIVATED MUSHROOMS**

**PERMIT NUMBER – PER14949**

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

**THIS PERMIT IS IN FORCE FROM 16 MARCH 2016 TO 28 FEBRUARY 2019.**

**Permit Holder:**

AUSTRALIAN MUSHROOM GROWERS ASSOCIATION LTD  
2 Forbes Street  
WINDSOR NSW 2756

**Persons who can use the product under this permit:**

Persons generally.

## CONDITIONS OF USE

### Products to be used:

HOWZAT SC FUNGICIDE

PLUS OTHER REGISTERED SOLUBLE CONCENTRATE PRODUCTS

Containing: 500 g/L CARBENDAZIM as their only active constituent.

### Directions for Use:

Crop	Disease	Rate
MUSHROOMS	DRY BUBBLE ( <i>Verticillium</i> spp.)	Apply 2.5 mL product per 100 kg casing material
	WET BUBBLE ( <i>Mycogone</i> spp.)	OR
	GREEN MOULD ( <i>Trichoderma</i> spp.)	Apply 2.5 mL product per square metre of bed surface.

### Critical Use Comments:

- Mix the required quantity of product in 1 L of water and apply to either 100 kg casing material or per square metre of bed surface as the case requires.
- To be applied only once per crop when preparing casing material by low pressure hand-wand or other low pressure spray equipment.

### Safety Directions

WARNING: Contains carbendazim which causes birth defects and irreversible male infertility in laboratory animals. Avoid contact with carbendazim. Read Safety Directions on product label before use of the product.

### When Mixing and loading:

Very dangerous particularly the concentrate.

Poisonous if absorbed by skin contact, inhaled or swallowed.

May irritate the eyes and skin. Avoid contact with eyes and skin.

Do not inhale the vapour or spray mist.

When opening the container, and preparing the spray solution wear elbow-length chemical resistant gloves and face shield.

After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, face shield and contaminated clothing

### When using:

When using the prepared spray wear elbow-length chemical resistant gloves.

After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves and contaminated clothing.

### Re-entry Period

Do not allow entry into treated areas until the spray has dried, unless wearing cotton overalls buttoned to the neck and wrist (or equivalent clothing) and chemical resistant gloves. Clothing must be laundered after each day's use.

No PPE is required once spray has dried for reentry or further activities (ie inspection, harvesting and removal of spent casing).

**Withholding Period:**

DO NOT HARVEST FOR 14 DAYS AFTER APPLICATION.

**Jurisdiction:**

NSW, QLD, ACT, NT, WA, SA & TAS ONLY.

(Note: Schedule 7 Poisons are 'specified chemical products' under Victoria's control of use legislation. These products must be used in accordance with the approved label unless a permit has been issued by the Department of Primary Industries. For further information please contact the Chemical Standards Branch, DPI).

**Additional Conditions:**

**THIS PERMIT** provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

**PERSONS** who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

**EXPORT OF PRODUCE:**

Users are advised to ensure that any produce resulting from treatment under this permit which is destined for export markets has appropriate residue tolerance limits established in the importing countries and that any residues do not exceed those tolerance limits.
