**Withholding Period:**

**WHEN USED IN NON CROP AREAS LIKELY TO BE GRAZED AFTER APPLICATION FOLLOW ALL APPLICABLE WITHHOLDING PERIODS SPECIFIED ON THE PRODUCT LABEL FOR THE PESTICIDE BEING USED.**

**Additional Conditions:**

This PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use the products for the purposes specified in this permit must read, or have read to them, the permit particularly the information included in DETAILS and CONDITIONS of the permit.

This permit allows listed herbicides to be applied to environmental weeds at the rates specified but does not give a guarantee of efficacy as the use patterns listed in this permit have not been fully evaluated under all conditions. Environmental weed species differ in their susceptibility to herbicides. Variation in the level of control may occur due to the degree of susceptibility shown and due to the prevailing weather conditions at the time of application and immediately post-application.

Only herbicide products that have label approvals in place for aquatic use can only be used in aquatic situations.

Issued by Australian Pesticides and Veterinary Medicines Authority
